

Opening Spark

1. Click on Spark icon. The first time you launch Spark after installing it, it will ask for a client name.
2. Enter a user.
3. Enter a password.
4. Click on Login.

NOTE: checking “Remember Me” box, Spark will automatically log on after double clicking on the icon.

You can also log in with Single Sign On (SSO). [Read our article](#) to learn how!
