

One or more views come up empty

It could be due to several **distinct** reasons.

1. If the report is a Historical report driven by dates, ensure you have **filtered** it right using the correct **dates**.

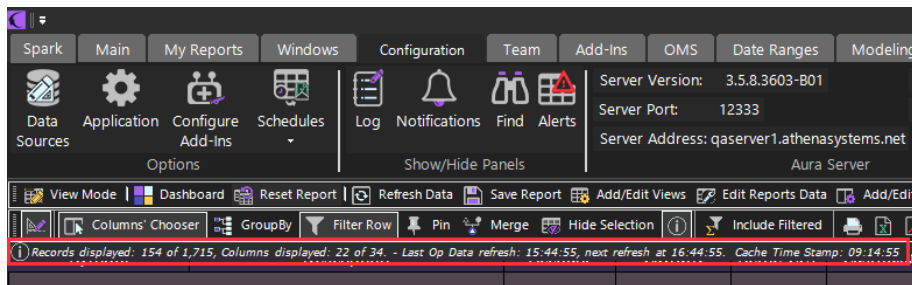

2. It could also be due to an applied filter in Reports, that is giving back 0 results.

This small icon in the top-left corner will help you identify the total number of rows in the report and if there is any applied filter.

To see it, click on the **Info** icon within the toolbar:

Then, place the mouse on the info icon (the left one in the screenshot above). This will show you the amount of filtered rows displayed in your report.
